

FRUTIGER GROUP

Frutiger Group is a large, client-oriented provider of construction services with skills in many different sectors of the construction industry. Our core business is civil and structural engineering, tunnel and road construction, turnkey and general contracting as well as project development. In other construction related business areas we offer selected market services.

Founded in 1869, Frutiger Group has grown to become one of the largest contractors in Switzerland. With more than 2300 employees, Frutiger Group reaches over 700 million CHF in revenues. Headquartered in Thun with a network of district offices across the German and French speaking part of the country, Frutiger AG serves clients requirements on time, within budget, and to the highest quality.

Frutiger Group is a closely held company. The shareholders in the 4th generation are Luc and Thomas Frutiger. In this family holding company tradition, open communication and a sense of responsibility is the solid foundation.
